

PRESS RELEASE

FOR IMMEDIATE RELEASE

May 11, 2018

SEASONAL LOAD RESTRICTIONS TO END

Spring weight restrictions for the Central Frost Zone (south of TH 210 and TH 18 in Crow Wing County) ended effective Friday, May 11, 2018 at 12:01 A.M.

Spring weight restrictions for the North-Central Frost Zone (north of TH 210 and TH 18 in Crow Wing County) will end Wednesday May 16, 2018 at 12:01 A.M. However due to poor soil conditions, restrictions will remain in effect for gravel roads in the northeast portion of the county including: CSAH 36, CR 105, CR 106 and CR 141 as well as Spruce Grove Rd and Burgstaler Rd until further notice.

Minnesota Statute 169.87 establishes weight restrictions. The weight on any single axle shall not exceed 5 tons on any unpaved street or highway; or 10 tons on a paved street or highway unless posted otherwise between the dates set by the Commissioner of Transportation.

Cooperation and compliance with the legal posted limits is needed to minimize unnecessary damage to our roads.

Information regarding restrictions in Crow Wing County is available at the Highway Department office or on the website: <http://crowwing.us/index.aspx?nid=156>.

For more information regarding state-wide seasonal load limit restrictions, check the Minnesota Department of Transportation website: http://www.mrr.dot.state.mn.us/research/seasonal_load_limits/slindex.asp.
